

SPAIN GETS CHANCE
TS SAVE DIGNITY
HAS AN OPPORTUNITY TO END
CUBAN WAR GRACEFULLY.

Practical Ultimatum Given—Uncle Sam Ready to Assist in Settling Troubles, But If Spain Holds Back Other Nations Will Justify Our Interference.

Madrid, Sept. 23.—The correspondent here of the Associated Press learns upon high authority that the much-discussed interview of Saturday last between the United States minister to Spain, Gen. Stewart L. Woodford, and the Spanish minister for foreign affairs, the duke of Tetuan, were merely preliminary. Gen. Woodford represented to the duke the gravity of the condition of Cuba and requested, in behalf of the United States, that Spain would find a method of speedily ending the war and giving justice to the Cubans. He offered the good offices of the United States in effecting a settlement of the Cuban troubles, which practically gives Spain an opportunity of gracefully ending the war. If she does not embrace it within a reasonable time, notice will be given that the United States must interfere, though Gen. Woodford has not said so yet.

Spain cannot expect the aid of European powers, as the United States ambassadors have ascertained that all the European countries, except Austria, recognize that the interests of the United States justify the latter's interference in Cuba. Austria, in this matter, is influenced by the relationship between the two dynasties, the queen regent of Spain being an Austrian archduchess; but it is not likely that Austria will take any part in the question beyond possibly making a diplomatic protest against the intervention of the United States.

The duke of Tetuan, the Spanish minister of foreign affairs, in the course of an interview with the correspondent of the Associated Press denied that the government had received an ultimatum from the United States with regard to Cuba, and said he had received a cablegram from Senor de Lome, the Spanish minister to the United States, to the same effect and also denying the existence of an ultimatum.

The Correspondencia de Espana asserts that four parliours are proceeding between the United States and Spain for a friendly settlement of affairs of Cuba.

El Epoca, after denouncing as "sensational" the story of an ultimatum, points out that the Cubans have not been at war with Spain without the moral and material co-operation of the American people.

It is asserted that the liberals will soon form a cabinet, and that on the return of the queen from San Sebastian to Madrid Capt.-Gen. Weyler will be recalled from Cuba and autonomy established in the island, thus leaving no pretext for the intervention of the United States.

CONFERENCE OF UNITARIANS.

Decision to Publish Books by Able Liberal Thinkers.

Saratoga, N. Y., Sept. 23.—"The Old Theology and the New" was the topic taken up at the morning session of the Unitarian conference Wednesday. Rev. Charles F. Dole of Jamaica Plain, Boston, discussed "The Points of Contact and Difference Between Unitarianism and the New Orthodoxy." Mr. Dole defined the new orthodoxy as substantially the same system of religious philosophy as Unitarians hold, with the same idea of the universe. It has, he said, gotten rid of the devil, the fall of man and like pieces of the medieval scheme. With Unitarians it pursues in general the same ideal ends for human society and the individual.

At the business meeting a resolution was carried to create a committee for the publication of a series of books by the ablest liberal thinkers and scholars upon the main aspects of moral and religious life. Fifty thousand dollars was resolved upon as the permanent endowment of the New World Quarterly; \$1,000 a year was announced as already guaranteed.

Freeport, Ill., Sept. 23.—At Wednesday's sitting of the Free Methodist conference the entire time was taken up with the examination of the characters of the ministers of the Chicago district, all of whom were passed except two—Rev. G. W. Whittington of Elgin and Rev. C. S. Spalding of Franklin Grove. The finding of the Elgin committee against Mr. Whittington, in which the charges of lying and immoral conduct were sustained, was laid before the conference and his case was referred to the committee on ministerial relations.

THE LAYMEN DEMAND
CONFERENCE SEATS
DR. LONG EXPLAINS THE
OBJECT OF THE MOVEMENT.

He Says the Cause Is Just - President of the New Association Says Church Members Will Continue to Fight For Equal Representation Until They Win.

Pontiac, Ill., Sept. 23.—Dr. Charles H. Long, president of the Laymen's Association of Central Illinois, Methodist Episcopal church, is, perhaps, the leading spirit of the movement among Methodists for equal representation of laymen with clerics in the general conferences of the church. Speaking of the association, its recent meeting at Canton and the justice of the laymen's cause, he said:

"I believe there should be equal ministerial and lay representation in the general conference. In the last general conference at Cleveland sixty-seven smaller conferences had equal representation. There were ninety-one ministers and ninety-one laymen, representing in all 567,487 members. There were represented fifty-five of the larger conferences, with 110 laymen and 246 ministers, for a membership of nearly 300,000.

"In the first class there was one representative for 6,000 members, and in the second class only one for 25,000 members, and it is the latter class that pay the bulk of the benevolences of the church.

"Three times have the laymen asked for equal representation, and three times have the ministers refused to grant it. They have always defeated the movement in the general conference. It is my belief that our claim is right and just, and that it should be granted immediately, without delay or temporization.

"The matter is not experimental. It has been proved that the admission of some laymen has been of signal advantage to the church, and it is equally certain that the equalization would promote harmony and greater activity among laymen for the advancement of the church.

"It has been urged that it would make the general conference too large a body. If so the laymen and ministers could readily effect a just reduction of both orders.

"I believe also that equal representation should give a fair, just treatment of our sisters, who comprise almost two-thirds of the laymen, by admitting them to general conference."

Star Pointer Defeated.

Milwaukee, Wis., Sept. 23.—Joe Patchen administered the second defeat of the season to Star Pointer Wednesday, winning the second and third heats of the race before 30,000 people at the State Agricultural society. Star Pointer won the first heat. Time by quarters: 31 1/2, 1:03 1/4, 1:34 1/2, 2:03 1/4. This is the fastest heat ever paced on a Wisconsin track. In the second heat Patchen led at the finish by several lengths in the slow time of 2:11 1/2. Time by quarters: 31 1/2, 1:03 1/2, 1:37, 2:11 1/2. The third heat proved an easy thing for Patchen. The starter had barely said the word "go" when Pointer commenced to break, and the heat was won by Patchen without any exertion in 2:07 1/2. Time by quarters: 31 1/2, 1:03, 1:36, 2:07 1/2.

No vak Indictments Held Back.

Belle Plaine, Iowa, Sept. 23.—The Benton county grand jury was ready yesterday to make a return of three indictments against Frank A. Novak, charging murder, arson and embezzlement, but new testimony bearing on the case was introduced at the very last moment and the indictments will not be returned before Friday morning. Attorney Milner, who has been retained to defend Novak, says there is no truth in the report that Novak admitted to William Murray that he guessed it was the remains of Edward Murray found in the debris of the burned building.

JAPANESE TROOPS
SENT TO HAWAII
ALL PREPARATIONS MADE TO
RESIST ANNEXATION.

Strong Force On the Island—Soldiers Shipped As Laborers—Steamer City of Peking Brought 171 Well Disciplined Men to Honolulu—Strong Annexation Sentiment.

San Francisco, Sept. 23.—Japan has been landing troops in Hawaii during the last three months preparatory, it is believed to resisting all attempts to annex the islands to the United States.

The steamer City of Peking, which arrived in this city yesterday from Hong Kong via Honolulu, brings this news, with the confirmation that it itself landed 174 Japanese soldiers at the capital of Hawaii under the guise of laborers.

The Japanese are bitterly opposed to the treaty of annexation, which was ratified Sept. 9 by the Hawaiian senate, and it is expected that desperate resistance will be made to this measure by the mikado. More than 1,000 soldiers from the land of the chrysanthemum are now in Hawaii.

Japan has been surreptitiously making preparations for a warlike resistance to annexation, it is said, for many months. The protest of the Hawaiian senate against the importation of more Japanese laborers is said to have been directed against the attempts of the mikado to land men who were in reality soldiers.

This is not the first time that rumors of the presence of the mikado's soldiers on the islands have gained ground. It is said that Japan has been sending soldiers secretly to Hawaii for months in the expectation that trouble would ensue over the desire of the Hawaiian senate for annexation to the United States. It is claimed by the newly arrived passengers that more than 1,000 well drilled men have been landed at Honolulu already, and that about 400 veterans of the Japan-China war are expected on the next steamer.

The overwhelming sentiment of thinking men in Hawaii in favor of annexation is shown by the rapidity and unanimity with which the senate ratified the treaty. The subject was taken up Sept. 9, according to advices brought here by the City of Peking, and before two hours had elapsed the vote of ratification had been enthusiastically given without dissent.

ODD-FELLOWS GO TO BOSTON.

Sovereign Grand Lodge Selects the Place of its Next Meeting.

Springfield, Ill., Sept. 23.—The sovereign grand lodge of Odd-Fellows at its session Wednesday morning selected Boston, Mass., as the place for holding the next annual meeting. The body then took up a number of appeal cases. There was a long discussion on the appeal of a Kansas City lodge from the action of the grand lodge of Missouri in compelling the subordinate lodge to pay benefits on the claim of a member who was in transition from one lodge to another when he became insane. There were two reports on the case, the majority report being sustained. It placed the membership of the claimant in the original lodge.

An interesting feature of the week to members of the order is the schools of instruction in unwritten work, under the direction of Grand Representative Walter E. Carlin of Jerseyville. They are held morning and evening in Assembly hall and Feros hall. The work is done by uniformed degree staffs from Cook county lodge No. 240 of Chicago, Rebekah lodge No. 331 of Marshalltown, Iowa, and the encampment degree team of Decatur, Ill., and the past noble grand degree staff of Chicago.

ALTON NEGROES RISE.
Fighting the School Board—Object to
Separate Schools.

Alton, Ill., Sept. 23.—The fight between the board of education and the negro citizens of Alton over the separation of the white children from the black is growing more fierce and the relations between the two are becoming more and more strained. There has been no serious trouble, but several of the school buildings were surrounded all day Wednesday by colored men and women who were there to see that their children received proper recognition.

The members of the board are firm in the stand they have taken, and say that no pupils will be recognized or allowed to recite a lesson until they are in the proper building. The stand they have taken is that the city of Alton has been put into one large school district, and they, with the superintendent, have the right to assign pupils to any school they think desirable. They say they are willing, if need be, to have the matter tested before the courts. On the other hand, the colored residents oppose the separate-school plan, and are no less emphatic in the stand they have taken, and say they propose to fight the case to the end. Public meetings have been held and a large sum of money has been raised. Col. John G. Brenholt of this city and Senator John M. Palmer have been retained as counsel for the colored citizens.

In the meantime the miners will endeavor to have the Danville district operators sign for the remainder of the year.

DON'T WANT HAYLETT SENT TO THIS CITY

ANOTHER DISTRICT ANXIOUS TO KEEP HIM.

Court Street Proposition Leads to a Caucus of Fond du Lac Pastors—Rev. S. W. Naylor May Come to Janesville or to Kenosha—Dr. Halsey's Plans.

The Court Street church appointment made a stir in the Methodist conference yesterday. In spite of the disastrous results from their attempts to caucus over the presiding elder matter at Stevens Point last year, the same thing was undertaken again when Presiding Elder Pease stated that Dr. Haylett would be the coming man for the Court Street church at Janesville. When this reached the ministers of the Fond du Lac district an indignation meeting was called immediately. All the members of the district attended. A. J. Rich of Horicon, the president of the Fond du Lac district Epworth League, was called upon to act as chairman.

Fond du Lac Wants Him.

Dr. Haylett has been presiding elder of the Fond du Lac district during the last year, and the ministers were unanimous in saying that in view of the successful manner in which Dr. Haylett had handled the district during the year no one else could now take the work with much promise. Though nothing definite could be done, the preachers were certain that with Dr. Haylett the salary could be increased. The chairman as a business man suggested this as the proper thing to do in due time. Mr. Rich and the Rev. James Uhrum were appointed a committee to do everything possible in an effort to retain Dr. Haylett. The bishop has already been approached on the question, and although the preachers do not think a change is possible, the very mention of it makes them nervous.

Halsey May Come to Milwaukee.

The Rev. J. B. Creighton reports a very pleasant and profitable year at Stevens Point, after surmounting the objections which were made to the very sudden removal of Rev. Per Miller. The church has treated him very kindly and the congregations have crowded the buildings all during the year. While no resolutions asking for his return were passed by the official board, yet there will be a hearty welcome for Dr. Creighton if he returns to Stevens Point.

Rev. Mr. Naylor a Possibility.

The Rev. S. W. Naylor, who was formerly pastor of the Farewell Avenue church in Milwaukee, is at the conference and will take work next year. It is understood that Kenosha will be glad to receive him as pastor. His name is also mentioned in connection with Court Street church of this city. Dr. S. Halsey is not yet present, the first time he has been absent for years. He does not expect to take regular work, but may undertake light work in or near Milwaukee. Dr. Matt Evans is an active participant in the conference sessions, but there is nothing definite as yet in regard to his future.

BACK THE TEMPLARS IN WAR ON SALOONS

JANESVILLE CASE ATTRACTS OUTSIDE ATTENTION.

Anti-Saloon League Has Suits On Hand In Several Cities And Has Made Inquiries As to the Scope of the Law In this City.

In the campaign for saloon regulation in this city the Good Templars are likely to have the backing of the Anti-Saloon League. A representative of the society was in the city today consulting with attorneys. The league is pressing cases in several Wisconsin cities. The object of the league is the suppression of the saloon and in this work it is pledged to avoid affiliations with any political party and to maintain an attitude of neutrality on all questions of public policy not immediately concerned in the drink traffic. The headquarters of the society is in Washington, D. C., where it was organized on Dec. 18, 1895.

The Party Lines Drawn

In the county organizations persons who oppose saloons are admitted regardless of party or of religious beliefs. Each local organization has a president, three vice presidents, a county superintendent, secretary, treasurer and executive committee. Sub-committees on organization, agitation, enforcement of law, legislation and finance are appointed annually by the county superintendent and he, with the president of the local league, is an ex officio member of each committee. The county superintendent has general oversight of the work in his county, and all meetings of the executive committee and all conventions of the people are subject to his call.

Need for Local Option Law.

J. H. Berkey, the newly appointed superintendent, says:

"One of the most crying needs is for an adequate local-option law, and this will be required of the next legislative body. It will be submitted as a bill, requiring that the local-option proposition be presented to the people at the foot of the regulation Australian ballot, just as constitutional changes are voted upon at present. A majority vote against the saloon will close every saloon in the county. If the majority of the county's voters prefer the saloon, wards, townships and municipalities may still have prohibition if they vote for it. In Arkansas, under the same system, three votes, two years apart, have been taken. At the first vote, twenty-five counties excluded the saloon; at the second vote thirty-one, and at the third, forty-four out of a total of seventy-five counties. It is estimated that three-fourths of the state, geographically, is now free from the open saloon."

POSSE HUNTED LOST BOY

Young Son of Spencer Phelps Missing For Three Hours.

To Mr. and Mrs. Spencer Phelps of 105 South Second street three hours never seemed as long as between six and nine last evening. Their eight year old son was missing, and the neighbors knew nothing of his whereabouts. The boy attended school in the afternoon at the Jefferson building but failed to come home to supper. The family became alarmed and neighbors helped them search. At 9 o'clock Mr. Phelps routed Janitor B. R. Hill out of bed and a thorough search of the Jefferson school was made from top to bottom. A few minutes later the boy came whistling into the house stating that he hadn't felt hungry enough to come to supper.

"Why, a date with a peach, of course," returned Cholly, with the air of a man who was making the hit of his life and he knew it.—Town Topics.

A Consistent Suggestion.

"Pete Amsterdam's wife has left town, so I invited Pete to come here and have a little game of poker with us this evening, but he hasn't showed up."

MADE CHEAPER BY WEALTH.

Speaker Reed maintains that concentration of capital means cheaper production; and that book-making is an example of the fact. Twenty years ago a paper mill making ten tons of paper a day was a large concern, but would now hardly be worth running. Croesus himself could not have built and conducted a dozen paper mills of the modern class or have sold a ton of the product. Back of the great mills and the demand for what they make is the accumulation and diffusion of wealth. Before the invention of printing, one book was an edition and readers were few. Now everybody reads and is cheaply supplied with daily journals, books, and periodicals published in countless interests. "With paper for next to nothing, printing for much the same and bookbinding by machinery, anybody," says Mr. Reed, "can try his hand at a book." There are thousands of readers for the older standard works where one existed in former times.

Only one line of thought is followed by Mr. Reed by way of illustration, yet the detached example will lead thought on this subject in the right direction. Through accumulations of wealth applied with the helpful energies of civilization the facilities of labor have been multiplied and the hours of labor shortened in the home as well as the factory. This affords more leisure for reading. Large capital has affected the transformation. In Mr. Reed's words "all this progress, purely intellectual, as it may seem to be, has its foundation in the growing and increasing wealth of the world."

YOU MANY MEN.

If the leaders of organized labor would bend their efforts to reducing the labor surplus in the coal districts they would do much for the welfare of the workingmen.

It is a fixed policy of the great coal mining corporations to so manage the working of their mines as to always have a large surplus of laborers. This is easily accomplished by resorting to the practice of working the mines with systematic irregularity. It takes double the force working half time to mine a given amount of coal that would be required if the work should be uninterrupted. Thus labor is played against labor by creating a constant famine of employment. This policy, also enables the operators to better gauge the output to the requirements of the markets, and to starve the consumer as well as the miner.

It would not help the matter to drive away the Hungarians, Slovaks and Poles and fill their places with an equal number of English speaking miners. There is no effectual remedy except to bring the labor supply into some juster relation with the aggregate of necessary production. As long as there shall be two men always ready to do the labor of one man no amount of striking will properly settle the wage problem. A place must be found for the extra man.

THEY LIKE OUR SHOES.

The recent report of Consul General Mason, at Frankfurt, Germany, that American shoes are steadily finding their way to Germany by way of London and Paris, and are meeting with ready sale in the large cities at high prices, should encourage our manufacturers to strike for that market by a more direct route and to increase their efforts to develop its full possibilities. The Consul says:

"Such American shoes as are now sold here are offered as a costly luxury, whereas the fact is that good factory made boots and shoes are cheaper, quality considered, in the United States than anywhere else in the world."

If the Germans buy our shoes at

luxury prices they would certainly buy them more largely if they could get them at American prices plus the cost of exportation duty, etc.

A TURN OF THE WHEEL.

The author of that pervasive ballad "Mr. Johnson, Turn Me Loose," has been behind the bars in New York City for disturbing the peace at the entrance of a theatre which denied him a pass as one of the profession. He announced in vain that he wrote a melody that has caught the fancy of all who hum or whistle the vagrant music of the day, and, disregarding the warning of a special policeman, was carried off to the station by one of the regular force. Behind the bars he ruminated on the shoals of fame and fortune and on the fatuity of the man who wanted to write the songs of a people rather than make their laws. To add to the irony of fate all his fellow-prisoners whistled "Mr. Johnson, Turn Me Loose."

AN ANGRY NATION.

Conflicting reports come across the sea about the Cuban matter but the report that Spain has mapped out a plan of campaign in anticipation of a war with the United States may have some truth in it. For a year past many of the newspapers of Madrid and Havana have been trying to foment war between the two countries. Their attacks upon the American minister in Spain, upon the consul general in Cuba, upon the administration at Washington, and upon the United States in general evidently has this object in view. War on this country would be suicide for Spain. Nevertheless, it is among the possibilities.

The supreme court believes that a judge may need newspaper criticism as much as anybody, and says no Wisconsin newspaper shall be punished for speaking the truth. Justice Winslow's comment on the Eau Claire ruling is significant: "If there can be any more effectual way to gag the press and subvert freedom of speech we do not know where to find it. Under such a rule the merits of a sitting judge may be rehearsed, but as to his demerits there must be profound silence. In our opinion no such divinity both hedge about a judge—certainly not when he is a candidate for public office."

They are churching a Kansas pastor because he says prayer meetings have no place in the church life—that revivals are what count. Why should he be called to account for a little thing like that? Prayer meeting methods were crowded out by revivals long ago in every phase of Kansas life.

The Colorado man who has just heard that a fellow who sent to Alaska with a "grab stake" three years ago wants him to come on in the spring and get his half of claims worth \$1,000,000 is a strong believer in the existence of honesty.

Mr. Bryan has made enough money preaching free silver to enable him to engage in some business outside of politics, if he isn't foolish enough to spend it all chasing the will o' the wisp of another democratic nomination for president.

Some of the tariff critics forget or ignore the foundation upon which every republican tariff bill has been built—the desire to make American citizens more prosperous than the citizens of any other country.

If the precedent be set that the republican party should accept candidates forced upon it, as the attempt is being made in behalf of Seth Low, there would be no end of trouble in the future.

The best advice yet given to Seth Low was from Mayor Strong. He told him that unless he got Senator Platt's support he should withdraw as a candidate for mayor of greater New York.

The attempt to revive the pastime of shooting "niggers," which has been heard from in Georgia, should be at once stopped; if the state authorities can't do it, Uncle Sam can.

New York wholesale merchants have sold more goods this season than they have sold before since 1892. Another proof that general prosperity is with us again.

The Virginia democrats are pawing the air and going through the motions of engaging in a campaign. Why, is not very clear.

The mugwumps of New York should not be allowed to use republican votes to climb into office.

Dingley times are not popular with lazy men; there is too much work to be had.

MEN SENT TO JAIL WITH NO PAPERS

SHERIFF BOTHERED BY COUNTRY JUSTICES.

In Edgerton There Has Been Great Irregularity And the Turnkey Has Been Warned to Accept No More Prisoners Unless the Law Is Obeyed.

Sheriff Acheson wants to know what is the matter with Edgerton. Charges against the sheriff were made on very slim grounds by the Edgerton Reporter in its current issue. The Reporter says:

Justice Spencer thinks he has a grievance against the conduct of the sheriff's office in this county, and what he specially would like to know is what authority the sheriff has for discharging prisoners sent to jail under commitment of the inferior courts. Last week a prisoner was sent down to jail under a sixty day's sentence for being drunk and disorderly and before the end of the week the prisoner was back in town and relaxing into his old habit. The justice thinks it little use to attempt to promote good order if the sheriff is allowed to turn offenders loose at his own discretion.

Now for the facts in the case. The man in question was sent down for thirty days instead of sixty, the charge being assault and battery. When the Edgerton marshal brought him down he presented a commitment that was not signed. As far as its legal significance was concerned, it might as well have been blank paper. The marshal had left before the irregularity was discovered; and it was decided to hold the prisoner, even though without legal justification, until the commitment could be mailed back to Edgerton and corrected. Nothing was heard from Edgerton for three days, however, and the sheriff knowing that he had no right to hold the prisoner, but not wishing to let him know it, set the man to sawing wood in the back yard. When supper time came, the prisoner was missing, as was expected.

The next day the commitment came back from Edgerton properly signed but containing another irregularity quite as serious. On the face of the return the case had been tried in Janesville, the word Edgerton not having been substituted for Janesville in the blank. Lack of jurisdiction was therefore distinctly shown on the face of the return and the prisoner could not have been held even had he not already been released.

Irregular commitments have been coming from Edgerton with great regularity of late and the sheriff who lays himself liable to action for false imprisonment whenever he holds a man on such a paper has been advised to be more strict.

THE SHERIFF LEVIED ON DOGS

Four of Dr. Bedford's Fox Terriers Are To Be Auctioned Off.

Sheriff Acheson is holding four of Dr. George H. Bedford's blooded fox terriers, having levied on the canines to satisfy an execution of \$10.71 issued in favor of Pendleton & Wilkey. Dr. Bedford says that to take four dogs is an outrage, as his dogs are worth \$25 each. The sheriff will sell the dogs at public auction, October 4, at 9 o'clock.

Bally Criticizes Supreme Court.

Eau Claire, Wis., Sept. 23.—Judge Bailey says when the supreme court attempts to declare that a publication reflecting on judicial proceedings and decrees and charging corruption in respect thereto is not a contempt when reference is not had to a pending cause, independent of statute, it stands alone in this enunciation of the law; that the few decisions which it cites do not sustain its position. He says if the legislature has power to impair or restrict the authority of the courts it must follow it has the power to destroy, as it must have full power in the premises or not at all.

WHY SCOLD COUNCIL ASKS THE MAYOR

ALDERMEN NOT TO BLAME FOR SIDEWALKS.

Property Owners Are the Ones Most Vitally Interested, But the Attorneys Are Also Called to Account For Encouraging Groundless Litigation—A Remedy Wanted.

EDITOR GAZETTE—A word or two in answer to a communication which appeared in the Gazette of the 21st regarding sidewalks in this city. I have had many years experience both as alderman and mayor and never before was there a common council who gave more of their time or made greater effort to inspect and keep in repair the sidewalks than the present one. It is easy for people to advise and say what the council should do and tell them about these damage suits. Now for instance the sidewalk in front of Shor's on North Main street has not been repaired. Any one can see it. A man or woman could walk over it a hundred times and never notice it. There are hundreds of places in this city where accidents are more likely, and this one might have happened equally well on the best walk in the city. Another claim is for some one who could not see a wagon. Now what can a city council do in such cases as these? Give us a practical remedy. Not a fault finding one. Is not the owner of property more to blame than an alderman? I think they are especially so when they are the ones who have to pay for these damage suits. Yet they will not put a nail in a loose board, nor in any manner try to avoid these suits. I do not apply this to every one but it is a fact in a majority of cases. Janesville is not alone in this matter, but for the common council to be brought to task so often, when damage suits are so readily taken up by our attorneys and for such frivolous causes is in my judgment wrong and unkind.

It is impossible for the council to prevent a suit whether there is any ground for it or not, especially when parties who think they have a claim are urged on by attorneys, who, knowing the fact, that the average jury always favors the party entering a claim against a city, or any corporation, are anxious to take up all claims whether imaginary or not.

SHEEP OR MORTGAGE LED TO A RUCTION

FARMERS EMERSON AND FINLEY AIR THEIR WOES.

Case Comes Up In the Municipal Court, and Each Party Tells a Different Story—The Matter Will Be Sifted Thoroughly Early Next Week.

When Daniel O. Emerson walked into Dr. W. H. Palmer's office yesterday afternoon with his head covered with knobs and bruises he was swearing vengeance on James Finley. Today he kept his pledge by having Finley arrested the charge being assault and battery.

Both the plaintiff and defendant are well known and prominent farmers, one residing in the town of Beloit the other in Newark. Business matter between the two led to yesterday's trouble.

Emerson stated in court this morning that the assault yesterday was without any reasonable cause.

"I was driving a flock of sheep to my home in the town of Newark," said Emerson, "when up stepped Finley and struck me in the eye knocking me over. He then struck me again and again badly cutting me about the face and head." Finley told an entirely different story. He does not deny that he struck Emerson.

"Emerson has a mortgage on my farm," he said. "He came to my place yesterday morning and tried to put a flock of his sheep in one of my barns. I started to drive the sheep out and trouble followed." At 10 o'clock this morning the case was called and by consent of both parties was adjourned until Monday, Sept. 27 at 9 a. m., the defendant being held in \$300 bonds.

The plaintiff, who is a man fifty years of age, will be represented by Fethers, Jeffris, Fifield & Mous, while the defendant, who is a brother of Richard Finley, of this city, has retained Sutherland & Nolan.

NO SLEEP FOR THREE MONTHS

One Cause of Sleeplessness That Can Be Readily Overcome.

Mr. Wm. Handschu of 56th St., Cotton Alley, Pittsburg, Pa., expresses himself as follows regarding the new remedy for that common and obstinate disease, piles: "I take pleasure in stating that I was so afflicted with the piles that for three months I got no regular sleep. I became completely prostrated. The doctors did me no good; my brother told me of the new remedy for piles, the Pyramid Pile Cure. I purchased from my druggist three 50 cent bottles and they completely cured me. I am once more at my work and but for this excellent medicine I should be on my back. I take great pleasure in writing sufferers from this trouble, who like myself did not know where to look for a permanent, reliable, safe cure."

Experience with the Pyramid Pile Cure in the past three years has demonstrated to the medical profession, as well as to thousands of sufferers from piles, that it is the safest and most effective cure ever offered to the public, containing no opiates or poison of any kind, painless and convenient to handle and being sold by druggists at 50 cents and \$1 per box, is within the reach of every sufferer.

Very frequently two or three boxes have made a complete cure of chronic cases that had not yielded to other remedies for years.

There is scarcely a disease more aggravating and obstinate to cure than the various forms of piles and it is a common practice to use ointments, salves and similar preparations containing dangerous poisons to remove the trouble. The Pyramid has superceded all of these ineffectual remedies and no one suffering with any rectal trouble make any mistake in giving the Pyramid a trial.

If in doubt as to the nature of your trouble send to the Pyramid Drug Co., Albion, Michigan, for a valuable little book on piles, describing all forms of the disease and describing the method of cure.

Any druggist can furnish the Pyramid Pile Cure as it is the best known and most popular remedy for piles and if you ask him he can doubtless refer you to many people in your vicinity who have been cured completely by it.

An Odious Comparison.

The following is a story of a doctor at one of the London hospitals. He was one day lecturing to a class of students when he stopped to ask a question, which for some time none of them answered. But one man, who had never answered a question before and was looked upon as the fool of the class, answered him correctly. The doctor was astonished, and stared at the man in amazement.

"You look surprised, sir," said the student.

"So did Balaam!" was the doctor's sharp reply.—Tit-Bits.

A Foreigner's Inference.

"It is not considered desirable to be happy in this country, I find," said the intelligent foreigner who had about mastered the language.

"Yes."

"And you have another which advises a man not to be a clam."—Judge.

Why He Smiled.

"I wish, when you bring soup, you would keep your thumb out of it," said Mr. Fastidious to Sam Johnson, a colored waiter.

"Don't worry, boss. My fum's all right. De soup's cold as er dorg's nose in Jannywerry," replied Sam, with a grin that made the top of his head look like an island.—Tammany Times.

There Was One.

"So there is no point to this joke, isn't there?" asked Mr. Snickers, as he received the rejected witticism from the editor.

"That's what I said," replied the editor, "but I see I was mistaken. Looking at it more closely, I perceive that you have put a period at the end."—Up-to-Date.

Married Men Preferred.

Mrs. Henpeck (with a self-satisfied air)—I notice that whenever Hard, Cash & Co. advertise for clerks or salesmen, they always say Married Men preferred.

She feared to make the avowal. "Edward," she faltered, when she could no longer postpone the inevitable, "my father has failed in business."

"I don't know that you ought to call him the biggest fool for that."

"Do you sanction that sort of thing?"

"No, but Barker doesn't know much about anything else. The biggest fool is the one who tries to talk about things he doesn't understand!"—Cleveland Leader.

Your Mission.

If you cannot on the ocean

You can make somebody laugh.

Good Printing...

Is like good painting—it demands and obtains a second glance. The second glance leads to thought about and knowledge of the thing portrayed, and then on to the artist or advertiser.

The kind of printing as well as the kind of painting that it pays to do and to have done is that which obtains this "second glance." Plenty of the other kind!

We are PRINTERS. Our work obtains glances of admiration, and thus leads on to the end desired. We don't do the "other kind." Put our job room to the test.

**"Job's Birthday"**

—the date be cursed! So a tired-out and exasperated woman speaks of Monday—wash-day. And so, probably, would every woman who celebrates it so often in the old-fashioned, wearing way. Though why they do it, when there's a better way that can't be found fault with, is a mystery.

You'd better celebrate the death of the day, by using Pearlina.

You wouldn't recognize it—with its ease, comfort, cleanliness, short hours, economy in time and in things washed.

Don't let prejudice against modern ideas stand in your way. Don't wear yourself out over the wash-tub just because your ancestors had to.

The addressing, folding, inclosing, sealing and stamping of five thousand circulars, with postage, will cost at least \$65, whether the circular is good or bad. Notwithstanding this fixed charge, some strive to save a dollar or two on the cost of printing, although the goods advertised are to be judged by the character of the printing, just as a house is judged by the character of its salesmen. BEST TIME TO BUY FRUIT

When an assortment such as Sanborn has for you to select from this week there certainly cannot be a better time to buy Fruit. A whole carload of the choicest varieties of seasonable Fruit is an amount such as Janesville people don't very often have an opportunity to sort over, and the prices, too, are worth consideration. In buying such a quantity we were able to get very close figures, to say nothing of the difference made in the freight rate, so that at wholesale cost prices on the very best qualities purchasers are enabled to secure the lowest of figures. We urge every person who contemplates preserving or canning Fruit to buy now as prices probably won't be lower and quality certainly can't be better.
